A Look at Georgia Agriculture

Capital: Atlanta
Population: 10.62 million
Founded: January 2, 1788 (4th)
State Bird: Brown Thrasher
State Tree: Live Oak
State Flower: Cherokee Rose
Number of Counties: 159
Largest City: Atlanta - 498,000
Nickname: Peach State
Number of Farms: 42,439
Average Farm Size: 235 acres
Total Farmland: 9.95 billion acres

Climate & Soil

• A humid subtropical climate with mild winters and hot moist summers is characteristic of most of Georgia. This, combined with a variety of soil types from the coast to the mountains, makes it an ideal place to produce a diverse variety of crops and livestock.

• Monthly average temperatures range from a high of 92.2°F to a low of 32.6°F.

• The average annual rainfall varies from 40" in central Georgia to more than 75" in northeast Georgia.

• Geographically, Georgia can be divided into eight soil provinces or major land resource areas. They are Southern Appalachian, Sand Mountain, Blue Ridge, Southern Coastal Plain, Black Lands, Southern Piedmont, Sand Hill, and Atlantic Coast Flatwoods.

• Georgia is the leading kaolin clay-producing state in the U.S. Georgia is also a leader in the production of granite, marble, barite, and bauxite.

Crops & Livestock

• In 2018 Georgia peanut farmers grew almost half of all the peanuts in the United States. Their farm gate value was more than $600 million.

• Georgia was the first colony to produce cotton commercially, first planting it near Savannah in 1734. Georgia ranks second nationally in cotton production. Its value was more than $792 million in 2018.

• Although Georgia is called the Peach State, it actually ranks third in United States peach production behind California and South Carolina. In 2018, the Georgia peach crop sales totaled $48 million.

• In 1986, Georgia passed legislation giving Vidalia onions, known by many as the sweetest onion in the world, legal status and defining the 20-county production area. The Vidalia onion was named Georgia’s official state vegetable in 1990.

• Fruit and Vegetable production has increased significantly in Georgia. Georgia’s top six fruits and vegetables are peaches, sweet corn, bell peppers, watermelon, blueberries and cucumbers.

• Georgia leads the nation in broilers and value of egg production. In 2018 broilers were valued at $4.4 billion dollars and eggs at more than $850 million dollars.

• Beef cattle are raised in all of the counties in Georgia.

General

• One of out of seven Georgians works in agriculture, forestry or a related sector.

• Agriculture contributes more than $76 billion annually to Georgia’s $1.07 trillion dollar economic output.

• More than 67% of Georgia is in forestland. Forestry has a $36 billion revenue output in Georgia.

• Georgia’s top ten commodities in order of their rank are broilers, eggs, cotton, beef, timber, peanuts, greenhouse, dairy, blueberries and corn.

• Georgia ranks first in the U.S. in the production of peanuts, pecans, rye, eggs and broilers.

• Coca-Cola was invented in May 1886 by Dr. John S. Pemberton in Atlanta, Georgia.

• Plains is the home of Jimmy Carter, the 39th President and a Nobel Peace Prize Winner in 2002.

• Georgia was the first state to charter a state university, The University of Georgia. It was founded in 1785.
